

New Super I/O!

Spectrum Controls' Super Hero I/O Saves the World

The new high performance 8-channel Universal Analog Module for **Compact I/O** reduces system costs and offers maximum flexibility. Mix thermocouple, RTD, resistance, current and voltage inputs with this compact, but ultra powerful hero. Whether it's **Compact I/O**, **ControlLogix** or **SLC 500**—our Universal modules have the muscle to save the day.

No longer compromise system performance! The **new ControlLogix 8-channel, high density Counter/Flowmeter** sets the standard for general purpose count and flow applications. Versatile, easy to use and the lowest price per point available. The Counter/Flow module is so flexible you simply won't believe it.

Tap the power of our Analog+HART I/O solution for ControlLogix. Build the foundation of a powerful control and asset management system. Monitor device performance, life cycle and statistical data to improve efficiencies, minimize downtime and leverage predictive maintenance information. With 22 million HART devices worldwide, isn't it about time you had the power to communicate with them?

To unleash the power of I/O, call 425-746-9481 or email spectrum@spectrumcontrols.com.

Check out our new Super Hero I/O at Allen-Bradley Automation Fair in Milwaukee on November 18-20 or visit our Web site for a sneak peek!
