

Super Hero I/O

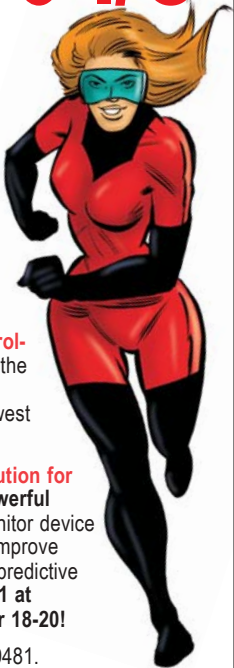

Spectrum Controls' Super Hero I/O Saves the World

Our new 8-channel high performance **Universal Analog Module for Allen-Bradley Compact I/O** reduces system costs without compromising performance. Mix voltage, current, thermocouple and RTD signals. Whether it's **Compact I/O, ControlLogix or SLC 500**—depend on our Universal modules to save the day.

Add muscle to your system! **The new ControlLogix 8-channel Counter/Flow Module** sets the standard for general purpose count and flow applications. Versatile, easy to use and the lowest price per point available.

Tap the power of our **Analog+HART I/O solution for ControlLogix**. Build the foundation of a powerful control and asset management system. Monitor device performance, life cycle and statistical data to improve efficiencies, minimize downtime and leverage predictive maintenance information. **See it at Booth #401 at Automation Fair in Milwaukee on November 18-20!**

For an I/O SOS, just whistle. Or call 425-746-9481.
