

Eat Your HART Out

Finally, a HART solution that's a piece of cake.

Nothing can hold a candle to Spectrum Controls' new **Analog+HART** modules and **HART Gateway** software. With this powerful combination, the dream of a control and asset management system can now be realized.

- Move past hand-held communicators.
- Improve control process efficiency.
- Leverage plant assets.

Our **Analog+HART** modules and **HART Gateway** software, coupled with Rockwell Automation's ControlLogix integrated architecture offer a simple solution to complex control system.

Want a tasty solution to asset management? Give us a ring at 425-746-2914, email spectrum@spectrumcontrols.com or visit our Web site at www.spectrumcontrols.com/hart3.html.
