

# Super Hero I/O

## Spectrum Controls' Super Hero I/O Saves the World

Our new 8-channel high performance Universal Analog Module for Allen-Bradley Compact I/O reduces system costs without compromising performance. Mix voltage, current, thermocouple and RTD signals. Whether it's Compact I/O, ControlLogix or SLC 500—depend on our Universal modules to save the day.

Add muscle to your system! The new ControlLogix 8-channel Counter/Flow Module sets the standard for count and flow applications. Versatile, easy to use and the lowest price per point available.

For an I/O SOS, call 425-746-9481.
