

1794sc-IF8IU/1794sc-IRT8I Application Note Operating Temperature Change Document No: 0100319-01 Rev. A0

About This Update

The 1794sc-IF8IU 8-Channel Isolated Universal Analog Input Module and the 1794sc-IRT8I IsolatedRTD/Thermocouple Module operating temperature ranges have been revised. Temperature ratings as previously published: 0 ° C to 55 °C have been modified. The new operating temperature ranges for horizontal and vertical mounting orientation are as noted in the diagram.
