

1794sc-IF8IU/1794sc-IRT8I Operating Temperature Change

About This Update

The 1794 8-Channel Isolated Universal Analog Input Module and the 1794 IsolatedRTD/Thermocouple Module operating temperature ranges have been revised. Temperature ratings as previously published: $0 \,^{\circ}$ C to 55 $^{\circ}$ C have been modified. The new operating temperature ranges for horizontal and vertical mounting orientation are as noted in the diagram.
