Announcing: Universal Industrial Gateway with Dual Ethernet Ports!

Spectrum Controls is proud to announce the next generation Universal Industrial Gateway, now featuring 2-Ethernet ports, a larger display, and serial adapter cables included in the box! Coupled with a total of 12 protocols in 1 box, the value of this gateway continues to grow, saving you time, money, and the headache of configuring multiple gateway devices.

Our single Ethernet port, Universal Gateway, catalog numbers are being superseded by the dual Ethernet port, Universal Gateway, catalog numbers.

Pricing remains the same.

Original Catalog #	New Catalog #	Description
WP-G-221-P1	WP-G-222-P1	2-serial port, 2-Ethernet port, 8-protocol gateway.
WP-G-241-P1	WP-G-242-P1	4-serial port, 2-Ethernet port, 8-protocol gateway.
WP-G-221-P2	WP-G-222-P2	2-serial port, 2-Ethernet port, 12-protocol gateway.
WP-G-241-P2	WP-G-242-P2	4-serial port, 2-Ethernet port, 12-protocol gateway.

The Universal Industrial Gateway provides a cost-effective, flexible solution for anyone faced with modernizing networks, connecting legacy devices, or integrating new machines. Own the single solution that's the equivalent of multiple 1-to-1 gateways.

Sincerely,

Tom Benson
Director of Product Marketing
