InView P7x End of Life Announcement

Subject: End of Life for InView P7x displays.

End of Life Part Number	Discontinued Date*	Recommended Replacement Part Number
2706-P72CN2-SC	September 2023	2706-P92C2-SC
2706-P72CN1-SC	September 2023	2706-P92C2X-SC
2706-P74CN2-SC	September 2024	2706-P94C2-SC
2706-P74CN1-SC	September 2024	2706-P94C2X-SC

*P7x catalog numbers will be available for sale through the discontinued date or until inventory is depleted. The discontinued date is an estimated run out date based on current forecasts.

Purpose: Full-color InView displays to become the standard offering. The P9xC2 / P9xC2X displays are NEMA 4 / 4X rated and provide the following advancements:

- Full Color – Differentiate your messages
- Increased Visibility – 2x brighter
- Increased Viewing Distance – 450'+ (137m)
- Lower power consumption

Support: All warranties for existing and new product will continue in effect with no impact. Legacy P7x catalog numbers are available for sale through the discontinued date or until inventory is depleted. Planning for migration to the larger profile, P9xC2 catalog numbers is recommended and can begin immediately.

Rockwell TechConnect will continue to provide telephone technical support for both our new and legacy displays. As is always the case, you are free to call us directly for technical support for all in depth issues. Our website, www.spectrumcontrols.com, contains full user manuals, datasheets, catalog numbers and other information for all display models.

Sincerely,

Tom Benson
Director of Product Marketing
